1. The tunic wouldn't allow you to do heavy labor or fight in battle, necessitating the "girding" of one's loins.

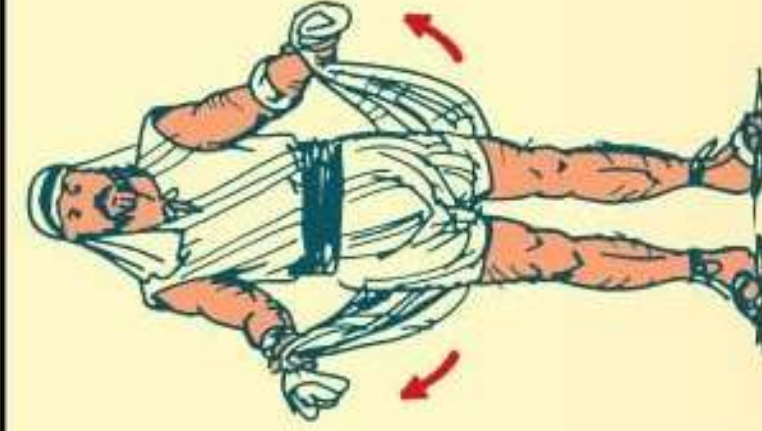

2. First, hoist the tunic up so that all the fabric is above your knees. This will give you mobility.

3. Gather all the extra front of you, so that the tunic is snug against you.

4. Once the excess fabric is gathered in front, pull it underneath and between your legs to your rear. This feels much like a diaper.

5. Gather half of the material in each hand, bringing it back around to the front.

6. Finally, tie your two material together, and for both battle and some Go forth, be ye men, a your loins!
